

SAN BENITO TO MEET WESLACO

Basket Ball Championship at Stake in Game This Week

Arrangements are being made for a basketball game some time this week between Weslaco, champions of Hidalgo county, and San Benito, champions of Cameron county, for the championship of the Valley district, according to an announcement here Saturday.

The San Benito team won the championship of Cameron county by defeating Harlingen, Brownsville and Rio Hondo, Wilson Tract being ruled out on account of failure to pay league dues, and La Feria forfeiting to Brownsville.

Weslaco had the highest average in the district after a series of games played there over a period of three weeks, while in Cameron county the championship was decided by a process of elimination.

The winner of the Valley championship will have the right to enter the district tournament, and the winner of that tournament will compete in the state meet.

In the junior division San Benito and Weslaco met in a game at Donna last day, the contest resulting in a 4-4 tie, which will be played off at a later date. The Brownsville junior basketball team had previously defeated the San Benito team by a score of 5 to 1, in a game played in Brownsville.

AN JUAN FORMS BASKET BALL TEAM

AN JUAN, Texas, Feb. 12.—Prospects for a fast high school basketball team are in the making, according to the O. C. Emery of the Pharr-San Antonio high school.

Emery is one of the best high school basketball coaches in south Texas, and has always turned out good ball players.

Emery's men intend to start working in preparation for games with other teams next week and much enthusiasm is being displayed.

ROADS TO BEACH IN SHAPE FOR TRAVEL

Roads from Brownsville to Point Isabel and to Boca Chica are both in passable condition again, it was reported Saturday.

Either of the roads could be crossed Sunday, a number of motorists were forced to return to Brownsville making part of the trip to Point Isabel. The Point Isabel road is reported as being in good shape, although the rough in places.

The Boca Chica road is passable for cars, although heavier motors may have difficulty in reaching the beach, it is reported here.

Shaffer Named Manager of St. L. & S. F. Railway

(By The Associated Press.) LOUIS, Mo., Feb. 13.—Announcement of the appointment of Fred H. Shaffer, assistant general manager of the St. Louis-San Francisco railway to the general managership was made here today by President M. Kurn. Mr. Shaffer succeeds General Manager James H. Fraser, resigned.

Fraser, in tendering his resignation, did not disclose his future plans, but has been in ill health for several years. The retiring general manager was of Wichita, Kansas and Fort Worth, Texas.

Aggieland Starts Baseball Training

COLLEGE STATION, Texas, Feb. 12.—The resounding crack of ash on horsehide is being heard daily down in Aggieland as the baseball training season in the Farmers' camp is now in full swing. A few of the candidates had been doing some preliminary training prior to the beginning of the official regular training season. Coach C. J. Rothgeb sent out the call for all aspirants to baseball fame to don the uniform and report to Kyle Field for practice last Monday. Thirty-five men were out the first day.

HOUSE TO PASS ARMY BILL SOON

Rivers, Harbors, Aviation Approved; Final Vote Tuesday

WASHINGTON, D. C., Feb. 13.—The house virtually completed consideration of the army appropriation bill today, approving \$50,000,000 for rivers and harbors, \$18,850,000 for aviation, and funds to maintain the army national guard and organized reserves at their present strength. Final vote on the measure was deferred until Tuesday.

While the bill was being discussed, Representative Bacon, republican, New York, announced that he was drafting a resolution for investigation into the condition of the army, and would press it unless the senate restored the positions of several thousand noncommissioned officers which otherwise would be abolished by the army measure.

"These non-commissioned officers and privates first class" said Mr. Bacon, "are the backbone of the army. To fail to appropriate money to continue them in rank would be a severe blow to the national defense. It would take away any incentive for a man to enlist, as there would be practically no opportunity for promotion."

The appropriation approved today for rivers and harbors, \$10,000,000 higher than last year, is to provide for inland waterways, development and surveys. The house agreed to two additional items for flood control, \$10,000,000 for the Mississippi river and \$400,000 for the Sacramento river.

Consideration of sections allotting funds for national homes for disabled volunteer soldiers provoked a sharp debate, in which the subsistence provided in these institutions was attacked.

Baseball Cleanings

(Continued from Page Six) ed, with the result that all three of them, individually, claimed the highest average. To settle it they are going to look up some of the old files of The Herald, which carried complete box scores of those games, and settle the argument.

And they wagered—and this is what they wagered: That the man having the lowest average would be ticket taker at the local ball park this season.

So, when going in the park this summer, one of the three will take your ticket.

Edinburg and Harlingen Edinburg and Harlingen have both talked baseball—but as yet have not entered the league. Edinburg seems certain to enter, and it is hoped that Harlingen is a good baseball town, and has many loyal fans.

These towns and any others that wish to make application for entry in the league have until the 25th of this month to do so, after which time no more entries will be taken into the league.

Brownsville Ball Park Brownsville has the nucleus of a

good baseball park—they have a fairly good grandstand, and part of a fence around the playing field. The grandstand will have to be remodeled to some extent, the grounds put in shape and an enclosure around the grounds before they are ready to play.

With an enclosure around the ball grounds the gate receipts will double.

Devereaux to San Antonio Jess Devereaux, crack little third baseman of the Brownsville team last summer, will display his wares before the powers that be of the San Antonio team of the Texas league next month in spring training. Jess may not make the Texas league grade, but he will get a lot of valuable experience, and if he shows enough class San Antonio will get him a job playing professional ball in some lower class.

Here's hoping Devereaux makes good, but you have to hit, run, think, field, and do a lot of other things well nigh perfect to make the professional grade.

Reports received in Brownsville this week are that Kozelski first baseman of last year's Brownsville team is attending St. Mary's school in San Antonio, and will probably make the ball team there. He was a fair player here last summer, and one of the very noticeable physical attributes of this boy, were his large feet. 'Tis said by members of the club last summer that he had to have his shoes made. But anyhow, they came in handy when he reached for the bag with his "dog."

BROWNSVILLE SHEET METAL WORKS

POULTRY MEETS ARE ANNOUNCED

Extension Department Sponsors Schools in Valley

(Special To The Herald.) SAN BENITO, Texas, Feb. 13.—Poultry schools will be conducted at five different places in Cameron county on February 23 and 24 under the direction of the Texas A. & M. college extension service, it was announced here by County Agent Henry Alsmeyer.

These meetings are planned in order to stress the value of poultry culture as an industry in itself, and as a valuable adjunct to farming.

The meetings will be conducted in such manner that any persons having questions to ask may do so. There will be an effort to work out the poultry problem in the Valley, and among the important points that will be discussed will be the proper feeding of chickens, and a discussion of the value of different breeds and strains. The care of chickens will also be discussed.

The first meeting will be held at Stuart Place, from 9 to 12 on the morning of February 23. The afternoon of the same day, from 2 to 5, a program will be held at the Harlingen Fair grounds, and the same program will be conducted at the Los Fresnos community house from 7:30 to 10 p. m. on the same day.

On February 24 a morning program will be held at the Highlands school house, and an afternoon program will be held that day in Brownsville, at the county court room.

Each of the programs will open with a talk by County Agent Alsmeyer on "The Place of Poultry on the Average Valley Farm," and will be followed by a talk by Mr. Glazener, poultry specialist from A. & M. college. Miss Kate Adele Hill, county home demonstration agent, will then talk on "The Woman's Poultry Program for Cameron County in 1926," and a recess will follow. The meetings will close with a talk by the county agent on "The Farm Agents Poultry Program for Cameron County in 1926," and a round table discussion of poultry problems.

LENGLEN-WILLS MEET TUESDAY

Neither of Net Stars Have Lost a Game in Preliminaries

(By The Associated Press.) CANNES, France, Feb. 13.—Suzanne Lenglen and Helen Wills, after three rounds played in the Carlton tennis tournament, both have reached the quarter finals without the loss of a game. Helen has granted her adversary a few more points than Suzanne, but experts can give nothing in the way of the comparative chances of the two champions in their forthcoming singles match, set for 11 o'clock Tuesday morning, except that the two greatest women tennis players have styles almost as far apart as the north and south poles.

Hard clean tennis on the courts today came as a relief to the political financial tennis which has been played in the room of the committee during the past few rainy days.

The battle for the filming rights and for other concessions is apparently forgotten now that the meeting between the French and American champions is practically a certainty.

Both Miss Lenglen and Miss Wills also made their way into the quarter finals of the women's doubles today.

On February 24 a morning program will be held at the Highlands school house, and an afternoon program will be held that day in Brownsville, at the county court room.

Each of the programs will open with a talk by County Agent Alsmeyer on "The Place of Poultry on the Average Valley Farm," and will be followed by a talk by Mr. Glazener, poultry specialist from A. & M. college. Miss Kate Adele Hill, county home demonstration agent, will then talk on "The Woman's Poultry Program for Cameron County in 1926," and a recess will follow. The meetings will close with a talk by the county agent on "The Farm Agents Poultry Program for Cameron County in 1926," and a round table discussion of poultry problems.

S. M. U. WINS HARD GAME FROM BAYLOR

DALLAS, Texas, Feb. 13.—Tied 13 to 13 at the end of the first half; then a brilliant race to a final 22 to 21 score. That epitomizes the thrilling nature of the basketball duel between Southern Methodist University Mustangs and Baylor University Bears here tonight. The Bears had the gloomy end of the score. The victory placed S. M. U. into a tie with Baylor for third berth in conference standing.

S. M. U. occupied themselves during the last three minutes of play in merely trying to prevent the Bears from overcoming the 3-point lead.

EDEN CHAMPION SAN ANGELO, Texas, Feb. 13.—Eden, Comcho county, today won the high school basketball championship of four counties by defeating San Angelo at Miles, 16 to 15. The game, played in a high wind, was unusual in that all Eden's points were scored by Bob Nails, right forward, with eight field goals.

PETTING PARTIES CHEAP CO-EDS OF SCHOOLS IN ROCKIES SAY AT PARLEY

FORT COLLINS, Colo., Feb. 13.—Petting parties are "cheap" and drinking among the college students is passe, co-eds from nine Rocky Mountain universities and colleges decided here today at a conference of associated college students.

Although they passed resolutions condemning petting and drinking, it passed up mention of smoking among women students. Conference leaders said the smoking problem was not serious enough in this region to warrant any definite action.

EAST COAST WINS IN SWIMMING MEET

SAINT AUGUSTINE, Fla., Feb. 13.—While ten world's records fell in dazzling succession, mermaids on the East coast made an almost clean sweep of the women's national A. A. U. swimming contests here this week.

New York gained three new champions and retained a like number. In addition, the women's swimming association of New York won the national team crown and holds the title for the 400 yard relay swim. Martha Norrell, New York, was the individual high point winner.

Illinois, with Sybil Bauer, and Ethel Lackie retained the home of two national champions, while California retained only one title when Eleanor Garatti, San Rafael, flashed to victory in the fifty yard free style swim on opening night.
